**REGULATED DRAINAGE EASEMENT NOTE:**

Pursuant to the Indiana Drainage Code (IC 36-9-27) the undersigned owners filed a petition with the Allen County Drainage Board (duplicated with the Allen County Surveyor) requesting that portions of the storm drainage system and easements for this development be accepted into the County's Regulated Drainage System. The portions of the storm drainage system and easements that have been accepted into the County's Regulated Drainage System are designated on this plat as Regulated Drainage Easements (RDE's). The Allen County Drainage Board has jurisdiction over the Regulated Drains within this development (IC 36-9-27-15) and may exercise its powers and powers as provided in the Indiana Drainage Code (IC 36-9-27) relative to those drains (e.g., levy an annual assessment per lot). The Regulated Drainage Code provides for the collection and conveyance of stormwater. The RDE's are established for the installation, operation, maintenance, and reconstruction of the Regulated Drains in accordance with IC 36-9-27 and with the Allen County Stormwater Management Ordinance.

The Allen County Drainage Board assumes no responsibility for any stormwater easements and/or improvements within this development that have not been accepted into the County's Regulated Drainage System. Other parties (e.g., individual lot owners or the homeowner's association) are responsible for the operation, maintenance, and reconstruction of those improvements.
